Foreword

It is wintry outside today as I start to make up my 1957 catalog. My special interest is in hybridizing for reblooming iris and I am introducing three new ones this year. I also list a few standard June blooming iris. The new fall bloomers are August Indian, September Contrast, and September Pastel. I will have enough increase to sell a few of each. My garden is in Westport, Massachusetts, one mile from Westport Point on the main road, and I will be pleased to have you call at any time.
